Ingredients (makes about 200 g/ 7 oz)

112 g [cacao butter](#) (4 oz)

1/2 cup [cacao powder](#) (40 g/ 1.4 oz)

1/3 cup [powdered Erythritol](#), [Swerve](#) or [Allulose](#) (50 g/ 1.8 oz)

1/2 tsp [vanilla powder](#) or 1 tsp sugar-free [vanilla extract](#)

pinch of salt

Optional: [stevia](#) drops, to taste

Optional: 1/2 tsp [sunflower lecithin](#) powder if you plan to bake with it

[Free & premium keto diet plans](#)

Instructions

1. Melt the cacao butter in a double boiler, or heat-proof bowl placed over a small saucepan filled with 1 cup of water, over medium heat. Make sure the water doesn't touch the glass bowl — it should only be heated through the steam.
2. Remove from the heat and set aside. Stir in the sunflower lecithin (if using), cacao powder, Erythritol, vanilla, and salt. If you want a sweeter taste, add the stevia. For a super smooth effect use Allulose instead of Erythritol.
3. Pour into a jar or use a 1/4 cup measure.
4. Pour it in [candy molds](#) or [chocolate bar molds](#). Let it sit to harden at room temperature or in the refrigerator.
5. Once hardened, remove from the molds and keep in an airtight container.
6. Store at room temperature or refrigerate for up to 3 months. Enjoy!
